<b>NOTICE</b>
---------------

**24 HOUR NOTICE IS REQUIRED FOR ALL INSPECTIONS. CONTACT (425) 888-7651 TO SCHEDULE.**

- 1) Install side sewer with a minimum of 18" cover.
- 2) Two (2) percent minimum grade, (1/4 inch fall per foot).
- 3) Clean out required at building, at property line, at one hundred (100) foot intervals and at horizontal change of direction totaling 135 degrees.
- 4) If stub not available, the owner shall be responsible for its installation. The stub shall be a minimum of 6" from the main to the property line. If a tee is not available, the sewer trunk shall be tapped through a City approved saddle. All work within the street right-of-way will require a Street Use Permit and shall be done by a Washington State licensed and bonded contractor. A City Business License shall be required of the contractor.
- 5) On-site side sewer minimum diameter is four (4) inches for a single family house, six (6) inches for all others.

**APPROVED MATERIAL**      1) Ductile Iron      2) ABS(SCH 40)      3) P.V.C.(SDR-35)

I hereby acknowledge that I have read this application and state that the above is correct and I agree to comply with all City ordinances, State laws, and lawful orders of the inspector. I further agree to reimburse the City for any charges incurred from outside agencies (State, County, etc.).
